

# VISITING GUIDELINES

**We have implemented visitor restrictions to protect all patients and staff due to the current measles outbreak:**

- Children under the age of 5 are asked not to visit the hospital, unless seeking medical care.
  - ◆ Compassionate exceptions may be considered based on a patient's critical condition/prognosis. Talk to a nurse.
- All children ages 10 and under must wear a mask while in our facility.
- Visitors who are sick should not visit patients in the hospital.
- Anyone with a cough or sore throat should wear a mask while in our building.

***Cover your cough.***

***Please wash your hands or use the antibacterial hand cleanser we provide throughout our facility.***
